Colton - The California Department of Transportation (Caltrans) will conduct lane reductions on the I-215 in both the northbound and southbound direction. The construction is necessary to replace the existing median barriers with the more contemporary concrete barriers as well as widening the shoulders in both directions. The construction will be a safety improvement to the motorists.

This \$4 million project is the first stage of the overall improvement project slated for the I-215. The construction will take approximately one week to complete, starting on Monday, August 7, 2006 and continue through Friday, August 11.
